WINTERIZATION SERVICE – INDICATE YOUR TIMING PREFERENCE:

- I am keeping my boat in the water this winter. Location & Slip _____.
- I have made arrangements to be hauled out with _____.
- Winterize my boat after _____ date, but before it is hauled _____ date.

A) Storage Fees are calculated on Length Overall (including bow sprits/swim platforms) and is \$40/ft. No "Do-It-Yourself".
B) Unless instructed otherwise we will: 1) Paint underwater hardware with Pettit Barnacle Barrier and 2) Install new zincs. *Cost not included in bottom paint prices.

If you are dry storing with us, please indicate preference:

- Owner would like to have HYY deliver boat for storage. Owner will deliver boat to Hartge Yacht Yard.
- Remove lines from slip (at no charge).

HARTGE YACHT YARD RECOMMENDS THE FOLLOWING IN PREPARATION FOR STORAGE OF YOUR BOAT:

Per the National Fire Prevention Association & Insurance Regulation:

- NO alcohol, kerosene, charcoal, LPG, or CNG cylinders. No gasoline is permitted in portable fuel tanks.
- Vessels in dry storage are not to be plugged into shore power unless you are in attendance and the boat is grounded.
- Bilge must be clean and free of oil, antifreeze, and other pollutants.
- All furling headsails must be removed.
- Fuel tanks should be 90% FULL and Holding Tanks EMPTY.
- Batteries should be charged monthly. Batteries lose about 10% of their charge a month, even with no draw.

- Fill fuel tanks Add fuel treatment to fuel tank Pump out holding tank(s) Clean bilge
- Winterize outboard *HYY has no room for outboard storage* Winterize outboard fuel tank & fuel line
- Check & Charge batteries on-board monthly Owner will take care of batteries

* Monthly on board battery checks includes walk through of boat, checking of bilge, pumps and deck cover.

MECHANICAL WINTERIZING: Winterize my boat after _____ date.

Typically, we winterize our customers boats including all of the items listed in this section. At spring commissioning, we do engine zincs, raw water impellers, fuel filters, and stuffing box checks. It helps us if you mark the boxes for all equipment you want us to winterize. Some equipment can be hidden and overlooked. Please feel free to add details on the form in the space provided on the back.

- Change engine oil and oil filter Winterize air-conditioning system
- Test and treat or change engine coolant Winterize fresh water system
- Check transmission fluid & change if needed Winterize salt/fresh water wash downs
- Change generator oil and oil filters Winterize head and holding tank
- Test and treat or change generator coolant Winterize windshield washers
- Check charging systems for proper output Winterize refrigeration (if water cooled)
- Winterize engine Winterize outside shower
- Winterize 110V/220V generator Winterize washer/dryer
- Winterize icemaker Other _____

Please note additional services on back
